This exhibition explores the relationship between culture and peace: how culture can be utilised to contribute to a more peaceful society. The artworks presented were inspired by ideas of how our society can be more peaceful. Media include painting, painted pottery, lino prints, sand painting and murals. Murals in the main street of Lospalos and in Kauto village on the main road in to town. The exhibition features works by students of Many Hands International's youth arts program mentored by Cesario Lourdes.
